

O.G.C. (Organic Ground Cover) Walk on Bark

PRODUCT DESCRIPTION:

O.G.C/Walk on Bark is a blend of 1”-3” Shredded Douglas Fir & Pine Bark, containing some Cambium Wood (the inner layer next to the bark). O.G.C. has a rich, reddish brown color that naturally has a nice forest fragrance. O.G.C. is also referred to as “Walk on Bark” when used on pathways. This bark lays flat when compacted down making it easy to walk on. O.G.C. is a colorful and decorative mulch for walkways and planting areas. It can also be used to control erosion. When used as a mulch, it helps to conserve water, lower soil temperature and reduce weed growth.

PRODUCT USES:

- Ground Cover / Mulch

PRODUCT APPLICATION:

- Recommended application rate for ground cover/mulch is a minimum of 2 to 4 inches deep. One cubic yard covers 324 sqft 1” deep.
- A pre application of a balanced fertilizer or *A-1 Lifelike 3/8” Compost* is recommended in planted areas to help prevent nitrogen draw from the soil as it decomposes

PRODUCT ANALYSIS:

Composition Shredded Douglas Fir & Pine Bark, containing some Cambium Wood
Particle Size 1/2” - 3”
