

Oregon Bark

PRODUCT DESCRIPTION:

Oregon Bark is a 3/8" Flat Screened Douglas Fir Bark. The Oregon Bark derives from the state of Oregon. Oregon Bark is brown in color and also produces a nice forest fragrance. Oregon Bark can also be used as a component in planter or potting mixes.

PRODUCT USES:

- Ground Cover / Mulch
- Amending Native Soils
- Component of Soil-Less Mix

PRODUCT APPLICATION:

- Recommended application rate for ground cover/mulch is a minimum of 2 to 4 inches deep. One cubic yard covers 324 sqft 1" deep.
- When mixing into existing soil, incorporate one part 1/4" Coarse Fir Bark to three parts soil. A nitrogen fertilizer may need to be added. Follow fertilizers manufacturer's recommendations.
- In soil-less potting mixes, some plants may respond differently to the same ratio. Try small batches to determine what mix is best for your plants.

PRODUCT ANALYSIS:

Composition	Flat Screened Douglas Fir
Particle Size	3/8"
